

# EPIQUE

by Dayton Audio

## E150HE-PR

Dayton Audio's ground breaking Epique E150HE-PR 5-1/2" with a carbon fiber cone is the perfect companion for the Epique Series MMAG subwoofers while retaining the same family look. It was engineered for a low FS in order to replace the excessive port lengths required for low-tuned enclosures. The E150HE-PR passive radiator gives you the opportunity to create systems that provide extraordinary accuracy and fidelity, without the extraordinary size.

- Passive radiators for the exceptional Epique Series enables you to use smaller boxes by replacing ports with excessive lengths
- Carbon fiber cone is strong enough to handle the pressure of high output drivers
- Incredibly linear 19mm xmech enhances output at low tunings
- Incredible versatility, perfect compliment for any compact subwoofer
- Cosmetically identical to the Epique MMAG subwoofers

### PARAMETERS

E150HE-PR	0 Disk	1 Disk	2 Disk	3 Disk
Mmpr (g)	76.5	109	138	167
